

## SOFTWARE DEVELOPER 4 - OCI PN

4th August 2025

**OCI**

Dear OCI,

Hello!

In addition to the required technical skills for this position – all of which I have – I have broad experience and have run dozens of projects from inception to wind-down through the full SDLC.

I think I could be an asset to this team, and I'd love the chance to discuss this opportunity!

Sincerely,

Jason Felice
