

SENIOR ENGINEER, CLOUD PAYMENTS

21st July 2025

Cloud Payments

Dear Cloud Payments,

Hello!

In addition to the technical requirements mentioned in the job posting, I also have about six years working directly with payment systems, including implementing protocols, certifying software, troubleshooting issues, and working according to PCI Data Security Standard.

In the past, I've become the go-to person for distributed debugging. My storied past gives me a large pattern book of failure modes, and I'm often (not always, obviously) able to give good advice before even digging into logs and code.

I'd love a chance to apply that knowledge at MongoDB!

Sincerely,

Jason Felice
