Senior Golang Engineer

8th August 2025

Rialtic

Dear Rialtic,

Hello!

I'm a senior/prinicpal engineer who's spent the last four years working in Go, including with Goroutines, pointers, structures, and interfaces, unit and integration testing.

I've built dozens of systems from scratch and maintained or fixed dozens more.

Given that you're specifically calling out Goroutines and pointers (basic concepts in the language), do you have a leveling problem? If so, know that mentoring, pairing, and code review are a big part of my toolbox.

I'd love an opportunity to talk about this position!

Sincerely,

Jason Felice
